## 2019 Pesticide Product Maintenance Fees

EPA Company No.: 56575 TENDER CORPORATION  
 944 INDUSTRIAL PARK ROAD  
 LITTLETON, NH 03561-

This listing includes all your active and suspended registrations under either Section 3 or Section 24(c) of FIFRA according to EPA's computer records. On each line, circle one of the four keywords to the left of the Registration Number (ERR, TRN, CAN, WAIV or PAY) to show whether you wish to (1) report an erroneous entry, (2) report a transfer of the registration to someone else, already approved in writing by EPA, (3) ask EPA to cancel the registration, (4) request a minor agricultural use or public health use waiver (see instructions to see if the product qualifies), or (5) pay the fee to maintain the registration.

When you finish each page, count the times you've circled each response keyword and record this count at the bottom of each column. Transfer the sum of these counts from all pages of this listing to line C1 through C4 of the Maintenance Fee Filing Form.

Line	Response Keywords	EPA Reg. No.	Product Name	Company Rec. Transfer

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

DEC 11 2018

Dear Registrant:

I am writing to you regarding the annual pesticide registration maintenance fees and the Environmental Protection Agency's plans for collecting these fees in 2019. The Agency has been collecting maintenance fees since 1988 from all who hold a primary pesticide registration under Section 3 of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) or a special local need under FIFRA Section 24(c).

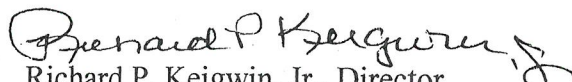

The Pesticide Registration Improvement Extension Act of 2012 (referred to as PRIA 3), which became effective on October 1, 2012, authorized the Agency to collect \$27.8 million per year in fiscal years 2013 through 2017. While PRIA 3 was set to expire September 30, 2017, the FY 2019 Continuing Resolutions passed on September 28, 2018 and on December 7, 2018, included language extending PRIA 3 through the duration of the Continuing Resolution period, thus the authority to collect maintenance fees at the level specified in PRIA 3 continues. The "caps" or maximum amounts are \$115,500 for the first 50 registrations and \$184,800 total for large businesses and \$70,600 for the first 50 registrations and \$122,100 total for small businesses. To qualify as a small business, a company must have 500 or fewer employees and average annual gross revenue from pesticide sales that did not exceed \$60 million. For certain qualified small businesses, there is now a provision for a 25% waiver of the fee on the first product. A qualified small business must have 500 or fewer employees; during the 3-year period prior to the most recent maintenance fee billing, have average annual global gross revenue from all sources (includes pesticide and non-pesticide revenue) that did not exceed \$10 million; and hold not more than five (5) Section 3 and Section 24(c) pesticide registrations combined.

The following items are enclosed with this letter: a printout listing all currently active or suspended registrations for your company and a reporting form with your company's name and EPA company number. The instructions and fee tables for the 2019 maintenance fee cycle can be found at [www.epa.gov/pesticide-registration/annual-pesticide-registration-maintenance-fees](http://www.epa.gov/pesticide-registration/annual-pesticide-registration-maintenance-fees).

**Please note that checks, bank drafts and money orders are no longer an acceptable form of payment. All payments must now be made electronically either through Pay.gov or through an electronic funds transfer (see page 8 of the instructions).** The fee per product is \$3,392 for each registration except for certain qualified small businesses which receive a 25% waiver on the first product (see Fee Table C). Maintenance fees are due by **January 15, 2019**.
